MEN STUDENTS ENDORSE REMOVAL OF "RED LIGHT"

Austin, Tex., Oct. 12.—For the first time this session, the men students met in mass at a meeting of the Students association. The purpose of the meeting was to decide the sentiment of the university students in regard to the recent removal of the "red light district," which was done through the instigation of mayor Woodruff and the Austin Anti-vice committee.

All men students who wished to express their approval of the mayor's action were asked to sign their names to a statement. A large percentage of the men expressed their approval.

The remarkable feature of the meeting was the fact that 90 per cent of the fraternity men, numbering about 375 men, were among the number who expressed strongest approval. This is contradictory to the report that fraternities are simply an organized method of supporting the "underworld."

In these times we do not talk about old age, for it is a relative term, and some people of 30 have not reached it. But the years go by nevertheless; and independence, and comfort, and even luxury, are excellent staffs for people in advanced life. Copyright, 1913, by The Star Company.
